

## A BETTER PLACE TO LIVE

A couple of points that might improve the environment around the village:

1. Can anyone explain the mentality of dog owners, who having collected their dog's waste in plastic bags, throw the bags into the nearest hedgerow or ditch, to remain there, on view, for months. Purple seems to be their preferred colour. Unbelievable!
2. Wouldn't it be nice if those who feel that they have to festoon telegraph poles, trees etc., with their notices (despite there being at least three notice boards in the village), would have the decency to take them down when their event is over? Many are there for weeks afterwards, eventually becoming a disintegrating eyesore. The record must be held by Quantock Young Farmers who in Peartwater Road, are still advertising an Easter Bingo for Sunday 24<sup>th</sup> April 2011!!

## FROG AND TOAD MIGRATION

It's that time of the year again when frogs and toads are making their way to water to spawn, so please take care when driving along the roads at night (especially near the reservoirs) so that you don't drive over them or the volunteers who help them cross the road to safety.

## Play Bowls!
