

Spaxton Village Hall News

Firstly the hall trustees would like to say happy New Year and thank you very much to everyone who signed the petition asking Viridor Credits for a grant towards installing a new, safe and efficient hot water system. We are very pleased to announce that the application was successful and the new system will be fitted over the next few weeks with as little disruption as possible to regular users. The plan for a playwall on the top field is also well underway and we hope to see it installed when the ground gets less boggy! Finally the Hall trustees have decided to raise the booking fees slightly for the first time since 2009. The increase has been kept to a minimum to cover running costs and I am sure you will see how reasonable the charges still are. Please remember, however, that these relate to local people as there will usually be a supplement for those from outside the village.

Booking Rates 2016
